PANIC TRIM

No Keys, No Wires, No WiFi and No IT Required!

Typically, electronic access control doors are only deployed on perimeter doors because of cost and complexity... until now. Proxess® now provides all the features of a typical electronic access control system (door and access schedules, audit trails, instant e-rekeys, etc.) for all door applications at a price similar to a standard Grade 1 lock.

Simply issue electronic keys to be turned on or off at the times and days you define and never worry about tracking down people to issue or retrieve keys or rekey ever again. You can assign these e-keys from anywhere...work, home or a beach in Cabo without visiting the lock.
